ARCOLITE 2100™ with Keyless Security™

A lightweight alternative to the Locking Safety Sac. This bag offers tamper-evident security without the hassle of key management. Save yourself money in the long run and help the environment by switching to reusable bags rather than disposable plastic. Our durable fabric bags can hold up for hundreds of trips.

MailSafe™ Mail Sac with Keyless Security™

Provides tamper-evident protection for round-trip mail through the Postal Service, internal courier or contracted courier services. Durable, reusable bag can survive hundreds of round trips and holds up to 5 times as much paper as a standard envelope, saving you money in the long run.

Keyless Security™ Pouch

Provides tamper-evident protection for operating manuals, memory sticks, or other small documents or devices. Also can be used as a lighter weight alternative for night deposit bags.

Executive Attaché with Arcolock-7®

Your own personal courier bag has a cushioned lining to protect a laptop or other electronic items during transport, and is equipped with the best lock in the industry to keep confidential documents, files, and electronics safe from tampering.

Vinyl Side Courier with Arcolock-7®

Clear side panels reveal bag does not contain cash, making it safer for couriers to transport paperwork. Clear sides also make it easy to see that all contents have been removed from bag.

Locking Data Sac with Arcolock-7®

Designed to transport computer printouts and confidential data. Equipped with a built-in, heavy duty, seven-pin tumbler lock. Top and side zipper for easy access to contents. Side stiffeners keep bag flat and protect its contents.

Clear PPE Transport Bags

Our PPE Transport Bag is made from our clear vinyl on both sides for at-a-glance confirmation that PPE items are packed correctly. Clear vinyl material is also easy to wipe down and sanitize.

Sneeze Guard Bag

Great for storing and transporting. Our heavy-duty sneeze guard bag has internal separators so each sneeze guard can sit in its own pocket. This will help prevent scratches since they will not be rubbing against each other during transport. Exterior pockets also have separators to hold the feet.
