Keyless Security™ Seals

Tamper-evident seals compatible with all Rifkin bags equipped with our patented Keyless Security™ chamber closure. Laser etched with unique, non-duplicated numbers that cannot be scratched off.

Pull Seals

Numbered Pull Seals include random, unduplicated numbering molded in high relief.

Anchor Seals

Plastic tail can pass through very small holes and be bent and sealed at any point along its length.

Arcoid Labels

Leaves no residue! Easy to apply, easy to remove. These self-adhesive labels are designed for surface mounting applications, such as file cabinets, drawers, laptops, cash boxes, voting machines, ATMs, credit card boxes at gas station pumps, etc... Sold in rolls of 250.

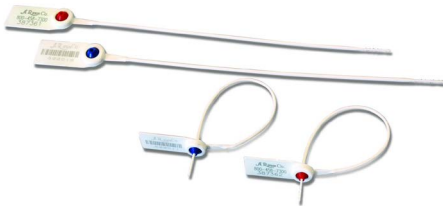

Mini Padlocks

You have the right to know if your property has been opened! Standard padlock keys and combinations can be stolen but there is no way to open a Rifkin Mini Padlock without leaving evidence that the contents have been breached. A broken, missing, or different numbered seal indicates that your property was opened. Minimum order is 5 padlocks. Available from stock. Keyless Security™ Seals sold separately.

Fast Seals

Can be removed without tools! Ideal for sealing -ATM Machine Cassettes -Voting Machines and other machines or containers with small openings.

Mega Twister Security Seals

Ideal for voting machines or other equipment with very small openings! Twister is permanently fixed in seal body. Thin sealing wire fits through most machine hasps. Mega Twister is designed to leave clear evidence of tampering if the seal is cut or forced open. Seals are etched with permanent laser marked bar coding.

Stand-Up Literature Display Kit

Display all literature, instructions, or brochures in lobbies or for temporary display booths. Easy to set up and break down in minutes and fits into slim carry bag.
